#
# The table below lists the characters allowed in the Unicode
representation of
# IDNs associated with the PT/portugese language. Registrants are advised
to carefully
# consider the potential confusion over the perception of equivalence
between an
# accented Latin character and a sequence of other Latin characters (with
# or without accents.) There exists no equivalence rule that can be applied
# universally as any such mappings are generally dependent on the language,
# culture and context in which an IDN is used.
#
# The following table is in compliance with the ICANN Guidelines for the
# Implementation of Internationalised Domain Names.
